Summary

Full stack Developer with 4+ years of IT experience designing and building scalable, high-performance web applications using React.js, Node.js, Express.js, and PostgreSQL. Expert in creating responsive, user-centric interfaces and robust backend services with a focus on clean code, maintainability, and seamless user experience.

Technical Skills

- **Languages:** TypeScript, JavaScript (ES6+), Python (Pandas, NumPy)
 - **Frontend:** React.js, Redux, Context API, HTML5, CSS3, Tailwind CSS
 - **Backend:** Node.js, Express.js, Kafka, Docker, Kubernetes, JWT, Passport.js
 - **Database & ORM:** PostgreSQL, MongoDB, Redis, Prisma
 - **Testing & Tools:** React Testing Library, JEST, Git, GitHub, VS Code, PyCharm
 - **Project & Issue Tracking:** JIRA, ServiceNow, Kibana
-

Work Experience

Frontend Developer

Capgemini | Feb 2022 – Present

- Developed dynamic, responsive React components, improving user engagement.
- Assisted in migrating legacy jQuery interfaces to React, enhancing UI performance and reducing DOM manipulation overhead.
- Integrated RESTful APIs into frontend applications, streamlining data flow and improving page load speed.
- Optimized state management using Redux and Context API, enhancing code maintainability and reducing state-related bugs.
- Collaborated with QA and backend teams in agile sprints to deliver high-quality features on time, reducing post-release defects by 27%.

RPA Automation Developer

Capgemini | May 2021 – Mar 2022

- **Led a team of 3 analysts** and drove automation initiatives that enhanced data reporting and system reliability.
 - **Implemented monitoring systems** and automated ticket tracking, reducing system downtime and ticket volume by 15%.
 - **Developed automation scripts in Python**, saving 25+ hours monthly and boosting operational efficiency by 20%.
 - Analyzed recurring system incidents to identify root causes, streamlining escalation processes and improving overall reliability.
-

Projects

Vastrum – E-commerce Web Application

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, Redux, PostgreSQL

- **Developed a responsive e-commerce** platform for clothing with a modern React frontend, delivering a seamless and intuitive user experience across devices.
- **Implemented product management** and shopping cart features to efficiently handle inventory and user purchases.
- Utilized **Redux** for effective frontend state management, improving scalability and maintainability.
- **Built a robust backend using Express.js and PostgreSQL** to manage data storage, APIs, and business logic.

Education

G H Rasoni College of Engineering, Nagpur

Jun, 2021
